VI. Stand L.A. Coalition—Discussion and Action Item on producing a Community Impact Statement in support of City Council motion 17-0447 (Council file here). This motion, introduced at the City Council on April 19, directs the City Attorney, the City Planning Department, and the City’s Petroleum Administrator to conduct a legal and land use study of an ordinance establishing a human health and safety buffer around oil drilling sites. This study would lay the foundation for the City Council to draft and adopt such an ordinance.

VII. Stand L.A Coalition—Discussion and Action Item on passing a resolution in support of the City establishing a 2500 foot human health and safety buffer around oil drilling sites. Such an ordinance would protect the health and safety of hundreds of thousands of Angelinos, especially in South Los Angeles where there are several oil drilling sites located in the midst of densely populated neighborhoods close to residences, schools, senior facilities, health clinics, hospitals etc. A buffer of 2500’ is necessary because existing science points to health and safety risks for people living (or working, playing, healing, learning or praying) far as 2500 feet away.
